2" Meter	<input type="checkbox"/> \$4,450	<input type="checkbox"/> \$4,450	Other: _____	At quoted cost
Other:	At quoted cost	N/A		

Any requested water tap larger than 2 inch will be installed by either the Developer's contractor or by a contractor selected by the Town of Blowing Rock. The applicant will be solely responsible for all cost associated with a contracted tap including necessary road repairs. If the tap is to be completed by the Developer's contractor, plans should be submitted to the Town of Blowing Rock Public Works and Utilities department for review, prior to completion of the tap.

Any requested sewer tap larger than 4" gravity or 2" force main will be installed by either the Developer's contractor or by a contractor selected by the Town of Blowing Rock. The applicant will be solely responsible for all cost associated with a contracted tap including necessary road repairs. If the tap is to be completed by the Developer's contractor, plans should be submitted to the Town of Blowing Rock Public Works and Utilities department for review, prior to completion of the tap.

It is the applicant's responsibility to determine the required flow rate and choose the appropriate size meter and service connection.

Applicant is responsible for obtaining all appropriate permits and inspections. For assistance or questions please contact the Town of Blowing Rock Department of Planning and Inspections at 828-295-5240.

All cost associated with any water and sewer tap are to be paid in full prior to any tap being installed. Applicant will be responsible for any unforeseen additional cost that may be incurred during installation.

WATER AND SEWER SERVICE LOCATIONS: Town of Blowing Rock Department of Public Works and Utilities will determine the best locations for the water and sewer taps prior to construction. The developer or homeowner may place a blue flag or other identifying mark at the preferred tap location. If the Town is unable to accommodate that location, the Public Works department will meet with the applicant to determine the best location. Water meter boxes and sewer clean outs are to be kept so that they are easily accessible for maintenance. There should never be landscaping concealing the location of the water meter box or sewer clean out. Cost for repairs for damage done to the water meter, meter box, meter box lid, etc., other than natural causes, will be the responsibility of the account holder(s).
